

Features

- * Build-in order programmed collect module, it can realize the real time signal collect function.
- * Support stereo line input with volume control.
- * Build-in a stereo power amplifier.
 - A. Built-in mini caliber, high rated powered hi-fi speaker.
 - B. Power output to 8ohms/10W fixed resistance speaker.
 - C. Support volume and balance adjustment.
- * Optional: can select the exchanger module to realize the extension function.

Specifications

Model	T-6707
Network Input	Standard RJ45× 3, 1 Input, 2 output
Protocol Support	TCP/IP, UDP, IGMP (group broadcasting)
Audio Format	MP3/MP2
Sampling Rate	8K~48KHz
Transmit Speed	10Mbps
Audio Format	16 digit stereo CD tone
Frequency Output	20Hz~16KHz
THD	≤ 0.3%
S/N	> 70dB
Speaker Output Impedance	8Ω /10W Industrial Standard
Aux Line Voltage Input	2×400mV Industrial Standard Screw terminals
Working Temperature	-20℃ ~ +60℃
Working Humidity	10%~90%
Power Consumption	≤ 25W
Power Supply	~110V/60Hz or ~230V/50Hz
Dimensions	162×115×360mm
Weight	3.66Kg

Rear Panel
