

## Features

- Distribute the 12 channel aux signal to 8 outputs.
- Built-in alarm matrix.
- Intelligent output 15 levels volume control.
- Buffer the aux input to isolate the DC.
- Amplify each aux output to provide higher drive current.
- Max 64 zone matrix system by cascaded 8 modules together.

## Specifications

Model	TB-6807
Power supply	AC9V,AC13.5V× 2
power consumption	2W
communication protocol	Serial communication protocol
communication speed	19200bp
Output level	2.5V Vpp
Dimension	160 × 100mm
Weight	0.15Kg

## Connections
