

Features

- * All in one compact & small size design for easy caring and portable use
- * Unidirectional LaValier microphone with high sensitivity for clearly voice transmission and receiving (headset microphone included)
- * Quartz stabilizer for carrier frequency transmission to avoid interference
- * The system work with AC and DC, You can also use the build-in rechargeable battery or with car cigarette lighter power for 12VDC (the power cord for car is not included, call us for optional purchase)
- * Amplifier working in VHF band and there are 10 different possible channels ready for max a group of 10 amplifiers working at the same place and same time. The carrier frequency start from 230 MHz to 260 MHz
- * Low power consumption for long time operation with integrated circuitry
- * SMT technology is used in building this amplifier, so the quality is very stable and lasts long
- * The amplifier is also a 9V rechargeable battery charger

Application

- * This is a unique designed amplifier speaker system with microphone is perfect for the following applications
- * Use as lecturing amplifier indoor or outdoor (especially for the dancing and gym teachers)
- * A perfect address delivery system for indoor and outdoor meeting, touring, churches
- * It is a good amplifier for interpretation, class teaching and commercial vendor demonstrations

Specifications

Power Supply	AC: 115V/230V (optional) DC 9V/12V/1.2AH (Including rechargeable battery)
Power Output	45W
Speaker	4Ω, 6.5"
Freq. Range	VHF 180-260MHz
Sensitivity	10dB/μA (S/N more than 60dB)
Shake Method	Quartz shake lock +/- 0.005%
Transmitter Power	35mW
Dimensions	180x110x300mm (WxDxH)
