

Features

Frequency: 200-270MHz, power frequency, more than 100 kinds frequencies points, with temperature compensation shock lock.

Noise Cancellation: with multiple silent installations to avoid signal interference and noise.

Voltage: DC9V

Host System:

Frequency response: 100Hz-16KHz

Input Signal: Cable Cx1 Wireless MIC x1 AUX x1

Power Supply: AC115V/230V (optional) DC 9V/DC 12V, 1.2Ah using sealed lead-acid maintenance-free batteries.

Effective use of period: radius than 50m, if no shelter up to 100m.

Applications:

Teaching, military training, guides, product promotion, auction, meetings, speeches and soon.
