

### Features

- \* Use the snap-in installation, simple and convenient.
- \* 150-degree spherical receiving, covering signals in a wide range.
- \* Signal gain is more than 35dBm.
- \* Adopt low-power circuit.
- \* Can be ceiling or wall-mounted installed.

### Specifications

Model	TH-0511
Frequency Range	6MHz-8MHz
Power Voltage	DC12V, supplied by the main controller
Current Consumption	25mA
Receiver Sensitivity	-85dBm
Gain	40dBm
Output Impedance	50 $\Omega$
Interface	BNC
Dimension	$\phi$ 98x74mm
Weight	0.44kg (Including the fixed plate)
